

IT'S THE INTERNET...

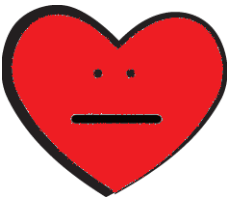

AND IT'S NOT GOING AWAY.

The three basic approaches to the internet.
Love It • Not Sure • Hate It

You love the internet. You've spent a lot of money developing a great website, and you want more traffic. Use our website www.centralmainetoday.com to reach nearly 500,000 people here in central and western Maine each month.

You want a website. But you don't know the best approach to take, or who you should trust. Count on Turner Publishing, Inc., the same people who have been helping grow Maine businesses since 1992.

You hate it. You would rather get kicked in the shin than spend money on a website. We have a solution for you. Sign up for our traditional newspaper advertising for 12 months at \$195 per month or above, and get a basic website for free. Ask your rep for details.

Harness the power of 15 publications with one convenient website...
